

Are you Winter Ready?

TEMP

ELECTRIX

KEEPING YOUR CONSTRUCTION PROJECT ON TRACK WITH OUR TEMPORARY HEATING SYSTEMS

As the UK winter sets in, dropping temperatures can threaten to delay your construction projects, compromise work quality, and increase costs. At Temp Electrix we specialize in providing reliable, efficient, and fully managed temporary heating services to keep your site operational, no matter the weather.

OUR COMPREHENSIVE TEMPORARY HEATING SERVICE INCLUDES

- ✓ **Full Design Services**
We assess your requirements either through detailed site assessments or by reviewing your project drawings to create tailored heating solutions that meet your specific needs.
- ✓ **Equipment Hire**
We provide a wide range of temporary heating equipment, allowing us to recommend a solution specific to each individual project.
- ✓ **Installation Service**
Our experienced team provides a full installation service, including the setup and programming of the heating installation.
- ✓ **Ongoing Maintenance**
Our team carries out planned maintenance visits, such as filter replacements and system inspections, to ensure your heating systems operate at peak efficiency
- ✓ **Remote Management & Monitoring**
We remotely monitor your heating systems throughout the hire period to ensure continuous, optimal performance and to quickly address any issues.
- ✓ **Generator Power**
If your temporary builders' supply is insufficient to meet the load demands, we can provide generator power as an alternative, with fixed fuel costs for the duration of the hire.

Why Choose Us?

- Nationwide coverage across the UK
- Fully managed, hassle-free service
- Protects your project timeline and quality standards
- Cost-effective, with transparent fixed costs

TRUST TEMP ELECTRIX FOR DEPENDABLE TEMPORARY HEATING SOLUTIONS. CONTACT US TODAY TO DISCUSS YOUR NEEDS AND GET A TAILORED QUOTE.
